

OLUWATUNMISE MATTHEW SULE

United States (Open to Remote Opportunities)

Professional Summary

Award-winning AI Content Evaluator with a strong Computer Science background and expertise in LLM evaluation, prompt engineering, AI data annotation, and software development. Experienced with Python, JavaScript, and TypeScript, combining engineering skills with AI evaluation to improve model quality, reasoning, and instruction-following.

Core Skills

- AI Content Evaluation
- Prompt Engineering
- Python
- JavaScript
- TypeScript
- Software Development
- Data Structures & Algorithms
- Object-Oriented Programming
- REST APIs
- Git & GitHub
- Analytical Reasoning
- Technical Writing
- Quality Assurance

Professional Experience

Computer Science Developer — Personal & Independent Projects (Remote)

- Developed applications and automation tools using Python, JavaScript, and TypeScript.
- Built scalable software following clean coding principles.
- Applied data structures, algorithms, and OOP concepts.
- Integrated REST APIs and AI services.
- Used Git/GitHub for version control.
- Tested, debugged, and optimized applications.

Language Data Evaluator — Remote Data Annotation Projects

AI Data Annotator — Freelance

AI Content Reviewer — Independent Contractor

Technical Competencies

Python • JavaScript • TypeScript • Git & GitHub • REST APIs • Visual Studio Code • Large Language Model Evaluation • Prompt Engineering • AI Annotation Platforms • Microsoft Office • Google Workspace
